

# REMANUFACTURED CLUTCHES

**Look like New,  
Warranted like New**

**The difference is not just cosmetic.**

**BEFORE**

**AFTER**

All internal components—sprags, energized springs, retainer, bearings, seal and hardware are refurbished or replaced to new performance standards. The inner and outer races are ground to specifications noted below so that no wear patterns remain.

- Sprag Surface is hardened to 58-62 Rc
- Sprag Surface finish is 15-25 microinches
- Sprag Surface taper limit is 0.0002 inch per inch

### Consider these advantages:

**Price** – A guaranteed savings of 30% (compared to list price for a new unit).

**Speed** – Clutches are received, inspected and rebuilt in the shortest possible time frame.

**Warranty** – 1 Year on labor and materials, same as new clutches

**Emergency Breakdown Program** – All products that are air freighted into the Formsprag Clutch plant are processed immediately and, in most cases, are able to be rebuilt within a 24-hour period.

**Formsprag**  
Clutch
